

testing::Test

```
graph BT; TearDownFailTest --> testingTest[testing::Test];
```

The diagram illustrates a relationship between two classes. At the top is a white box with a thin grey border containing the text 'testing::Test'. At the bottom is a grey box with a thin black border containing the text 'TearDownFailTest'. Two blue arrows originate from the top of the 'TearDownFailTest' box and point upwards to the bottom of the 'testing::Test' box, indicating that 'TearDownFailTest' inherits from or is associated with 'testing::Test'.

TearDownFailTest
