

```
testing::internal::  
UniversalPrinter< T >
```

A diagram illustrating a relationship between two C++ template specializations. A light gray box at the top contains the text 'testing::internal::UniversalPrinter< T >'. A dark gray box at the bottom contains the text 'testing::internal::UniversalPrinter< const T >'. A blue arrow points vertically from the bottom box to the top box, indicating that the specialization for 'const T' inherits from or is related to the specialization for 'T'.

```
testing::internal::  
UniversalPrinter< const T >
```
